ENGINEERED BENEFITS

AURELIA®

AURELIA

AURELIA contains 250 g/l prothioconazole and is a broad-spectrum systemic fungicide with eradicant and protectant activity for use in cereals and Winter oilseed rape.

AURELIA is an emulsifiable concentrate formulation suitable for use alone or in tank-mix with a wide range of fungicides, herbicides and insecticides to provide effective control of key diseases.

For more information including product label, safety data sheet and compatible tank-mixes see the Life Scientific website or download the App to get product information direct to your phone.

Product Performance

To assess comparability of AURELIA against the reference product, 8 separate field trials were conducted in France and the UK looking at control of *Septoria tritici* and Brown rust.

To encourage the onset of disease, no T1 treatments were applied. Crops received a single application of AURELIA and the reference product, Proline, between growth stages 39 and 45.

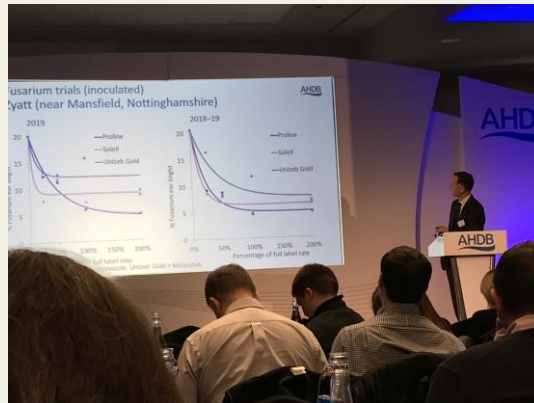

Disease assessments were carried out on Leaves 1 and 2, 3 to 4 weeks after application.

AURELIA proved to be as effective as the reference product against both diseases.

Product Strengths

AURELIA has many strengths in a cereal fungicide programme, including control of Yellow Rust and Fusarium, as can be seen consistently in the AHDB Fungicide Performance trials, which includes trials data from the UK and Ireland. In the Fusarium trials, prothioconazole has consistently given the best percentage control of Fusarium ear blight.

Product Uses

| CROP | MAX IND. DOSE | MAX TOTAL DOSE | LATEST APPLICATION |
|--|---------------|----------------|------------------------------------|
| Winter and Spring Wheat, Durum wheat and Triticale. Winter Rye | 0.8L/ha | 2.4L/ha | Before grain milky ripe GS 71 |
| Winter and Spring Barley and Oats | 0.8L/ha | 1.6L/ha | Up to beginning of flowering GS 61 |
| Winter Oilseed rape | 0.7L/ha | 1.4L/ha | 56 days before harvest |

About Life Scientific

We specialise in bringing high quality off-patent crop protection products to market. Our goal is to give our customers better options to meet their plant protection needs.

So, if it's under the Life Scientific brand you can be confident it's as effective as the current leading standards in the market.

For product queries in the UK, call our new free phone helpline 0800 044 5025 or email infoUK@lifescientific.com

AURELIA is a registered trademark of Life Scientific and contains prothioconazole.

All other products are those of other manufacturers where proprietary rights may exist. Use plant protection products safely.

Always read the label and product information before use. For further product information including warning phrases and symbols refer to www.lifescientific.com
