

The following tank mixes are supported for physical compatibility with AURELIA at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance; therefore use is at users own risk.

Only one herbicide, one fungicide and one PGR are recommended in one mix unless otherwise stated.

Aurelia can be mixed with one of the following fungicides as well as one herbicide, one PGR and one other fungicide.

- Amistar
- Amistar + chlorothalonil<sup>1</sup>
- Chlorothalonil<sup>1</sup>
- F500
- F500 + chlorothalonil<sup>1</sup>
- Corbel
- Fortress
- Tern
- Swift SC
- Swift SC + chlorothalonil<sup>1</sup>
- Torch Extra.

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

**PLEASE NOTE:**

The following tank mixes are supported for physical compatibility with AURELIA at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to AURELIA may be applied in mixture with the following pesticides:
