

The following 2-way tank-mixes are supported for physical compatibility with BASILICO™ at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Before using any tank-mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

PLEASE NOTE:

The following 2-way tank-mixes are supported for physical compatibility with BASILICO™ at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to BASILICO™ may be applied in mixture with one of the following pesticides:

Comet 200

Dow Shield

Diva

Dual Gold

Fornet 6 OD

Mavrik

Milagro 40 OD

Nico Pro 4 SC

Opera

Peak

Stomp*

Notes:

*When BASILICO is tank-mixed with Stomp, constant agitation is needed at all times.

An adjuvant system is part of the formulation of BASILICO, and so the further addition of adjuvants or tank-mix wetting agents is not recommended.

Tank-mix sheet produced 08/05/2024.
