

The following tank mixes are supported for physical compatibility with ESKER at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance, therefore use is at users own risk.

Only one herbicide, one fungicide and one PGR are recommended in one mix unless otherwise stated.

Before using any tank mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

PLEASE NOTE:

The following tank mixes are supported for physical compatibility with ESKER at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to ESKER may be applied in mixture with the following pesticides:

Swift SC + Cleancrop Mondial	Canopy
Swift SC + Corbel ⁴	Cleancrop Alatrín
Swift SC + Duplosan	Cerone
Swift SC + Eagle	Upright ²
Swift SC + Finish SX	

PLEASE NOTE:

Do not tank-mix Esker with Crawler or Platform S.

Physically compatible with constant agitation.

^ Two-way mix only

* Approved Chlorothalonil SC formulations only

^^ OSR crops only

** Do not apply to OSR crops in flower.

In soft crops avoid the use of tank-mixtures with Niantic + Probe/Biopower or Cintac + Probe/Biopower

All sulphonyl urea herbicides have the potential to cause damage to sensitive crops if residues are left in the spray tank. For this reason sprayer hygiene following the use of SU + chlorothalonil + Esker is very important. Sprayers should always be thoroughly cleaned out with a proprietary sprayer cleaner immediately after use. This should always take place, even if further cereal crops have been treated by the sprayer between the last application SU mixtures and a subsequent broad leaved crop.

DO NOT use Kipota/Topik in mixes with Esker + Strobilurin + Cleancrop Alatrín

Authorisation for disposal, storage and use of existing stock ends on:

- ¹ 20/05/2020
- ² 30/06/2020
- ³ 31/07/2020
- ⁴ 31/10/2020
- ⁵ 03/02/2021

Tank mix sheet produced 11th March 2021.

AZOXYSTAR, CINTAC, LAMDASTAR, NIANITIC, and SUMIR are registered trademarks of Life Scientific. AMBARAC, KIPOTA and PROBE are trademarks of Life Scientific.

ESKER contains prothioconazole and tebuconazole. AMBARAC contains metconazole. KIPOTA contains clodinafop-propargyl + cloquintocet-mexyl. LAMBDASTAR contains lambda-cyhalothrin. AZOXYSTAR contains azoxystrobin, CINTAC and NIANITIC contain mesosulfuron-methyl and iodosulfuron-methyl-sodium. SUMIR contains florasulam.

All other products are those of other manufacturers where proprietary rights may exist.

Use plant protection products safely. Always read the label and product information before use.
