

The following tank-mixes are supported for physical compatibility with ESKER at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

ESKER may be applied as a 2-way tank-mixture with one herbicide, one fungicide or one plant growth regulator from the following lists.

ESKER may be applied as a 3-way tank mixture with AZOXYSTAR plus one herbicide, one fungicide or one plant growth regulator from the following lists.

In addition, ESKER may also be tank-mixed with one of the listed insecticides.

ESKER plus Arizona, Ceratavo Plus or Phoenix may be applied as a 2-way tank-mixture only.

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

**PLEASE NOTE:**

The following tank-mixes are supported for physical compatibility with ESKER at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to ESKER may be applied in mixture with the following pesticides.
