

The following tank mixes are supported for physical compatibility with ESKER at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance; therefore use is at users own risk.

Only one herbicide, and one insecticide from the list unless otherwise stated. A maximum of only two selections, one from the list of herbicides and one from the list of insecticides may be mixed at any one time.

Do not tank mix Esker with Carbetamex or Crawler.

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

PLEASE NOTE:

The following tank mixes are supported for physical compatibility with ESKER at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to ESKER may be applied in mixture with the following pesticides:
