

The following tank mixes are supported for physical compatibility with LS TRINEX at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance; therefore, use is at users own risk.

Life Scientific will support the physical compatibility of 2 or 3 way tank mixes of LS TRINEX + chlormequat (classified as one product) with any of the fungicides, herbicides, insecticides, PGR's or adjuvants listed below. Except in the case of spring oats.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.
