

The following tank mixes are supported for physical compatibility with LAMBDA STAR at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance, therefore use is at users own risk.

Life Scientific will support the physical compatibility of 2 or 3 way tank mixes of LAMBDA STAR with any of the fungicides, herbicides, insecticides, PGR's or adjuvants listed below.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

**PLEASE NOTE:**

The following tank mixes are supported for physical compatibility with LAMBDA STAR at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to LAMBDA STAR may be applied in mixture with the following pesticides:
