TANK MIX SHEET

AUTUMN

NIANTIC®

The following tank-mixes are supported for physical compatibility with NIANITIC® + PROBE or Biopower at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

This AUTUMN tank-mix sheet provides information in addition to what appears on the product label for NIANITIC®.

Life Scientific will support the physical compatibility of tank-mixes of NIANITIC® + PROBE or Biopower with the herbicides or insecticides listed below. A maximum of only 2 other products (1 herbicide and 1 insecticide) may be mixed at any one time.

Before using any tank-mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

PLEASE NOTE:

The following tank-mixes are supported for physical compatibility with NIANITIC + PROBE or Biopower at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to NIANITIC + PROBE or Biopower may be applied in mixture with the following pesticides:
