## TANK MIX SHEET

## NIANTIC®

The following tank mixes are supported for physical compatibility with Niantic® at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance, therefore use is at users own risk.

AUTUMN tank mix sheet which provides information in addition to what appears on the product label for Niantic®

Life Scientific will support the physical compatibility of tank mixes of Niantic® + Probe/Biopower with any of the herbicides and insecticides listed below. A maximum of only 2 other products (1 herbicide and 1 insecticide) may be mixed at one time.

Before using any tank mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

**PLEASE NOTE:**

The following tank mixes are supported for physical compatibility with NIANITC at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to NIANITC may be applied in mixture with the following pesticides:
