

The following tank-mixes are supported for physical compatibility with ORASO PRO at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

ORASO PRO may be tank-mixed with the listed products from one row of the table below, plus one of the listed insecticides (**highlighted in red**).

Before using any tank-mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

PLEASE NOTE:
