

The following tank-mixes are supported for physical compatibility with TRINESTAR at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Life Scientific will support the physical compatibility of 2 or 3-way tank-mixes of TRINESTAR + chlormequat (classed as one product) with any of the fungicides, herbicides, insecticides, or PGRs listed below, except in the case of spring oats (see Notes).

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank-mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

**PLEASE NOTE:**

The following tank-mixes are supported for physical compatibility with TRINESTAR at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to TRINESTAR may be applied in mixture with the following pesticides:

**FUNGICIDES**

AMBARAC/Caramba

AURELIA/Proline

AZOXYSTAR/Amistar

Bontima
