

UK CUSTOMER TECHNICAL MANAGER

DESCRIPTION

We are currently looking for a UK Customer Technical Manager.

Life Scientific Ltd is located in the UCD campus at NovaUCD, the innovation hub of Ireland's largest University, and specialises in the development and registration of crop protection products. Together with our partner InVivo (www.invivo-group.com/en), France's largest co-op (€6.4 billion global sales; 9,200 employees worldwide), we are expanding our UK team to manage our global growth.

Our company culture is based on shared leadership and coupling responsibility to expertise, creating a flexible, collaborative environment for a uniquely productive and enjoyable work experience. Core to our success is recruiting the right people who will thrive in our culture and will enable the company to excel.

The position

The main responsibilities of the role will include; establishing a technical support programme for UK agronomists and key influencers. You will be expected to engage with internal and external teams to ensure technical information is conveyed to customers along with working with the R&D manager to deliver practical product demonstrations including field trials, video advice and study tours. This homebased role is nationwide and extensive UK travel is expected.

Ideal Candidate:

Applicants should be educated to degree level or equivalent and have at least 1-2 years' experience in similar role. A good understanding of the UK arable sector coupled with the ability to develop a detailed technical knowledge of a wide range of products would be required. BASIS is not essential but the successful candidate would be guided in working towards it.
